UNITED STATES, JAPAN AND GREAT BRITAIN,

WASHINGTON, March 2 .- By unanimous vote, 58 Se NACHITUTUR, MARCH Z.—By MARMONIS VOIC, \$8 Senators answering the roll, the Senate last night attached an amendment to the Naval Appropriations Bill, a section calling, upon the President to call a conference of the United States, Japan and Great Britain to consider naval disarmament.

The proposition originally presented by Senator Borah, Repul Idabo, was put before the Senate under unamimous consent agreemen by Senator Edge, Republican, New Jersey, and the vote was taken upor

The vote was taken after seven hours of debate, which included cutive session at which foreign affairs, particularly in reference

BIRDS FOR OF INSECT PESTS.

Special investigations to find how far the various bird species and mankind in his perpetual war on intext cuemies are being carried on by the United States Berusa of Biological Survey. In the vestern states the grassbopper is particularly routhle-bom, so far as the furner states the grassbopper is particularly routhle-bom, so far as the furner special of birds, and converted to the proper special of birds. The period of the period birds having the best records were the lark sparrows, meadow larks, Franklin gulls, Arkansas kingbird, crow, blackbird and the common kingbird. Probably there are not birds enough in the country to clean up a full-strength invasion of grasshoppers, such as the western farmers have come to dread, it is said, but the birds assist materially in the efforts made by man to control the post.

made by man to control the pict.

Specialist's with a piosoing campaigns are among the best weapons used against the grasshopper. From time to time reports are sent in asying that many blots have fallen victim to the piosoned mixtures placed for the inacets. Such charges were associated with, the grypy moth spring campaign in New England and with the Livying of poisoned makes for cutworms and other insects. Careful observation, made by experts, shows that bird losses from such causes are insignificant. So experts, shows that bird losses from such causes are insignificant. Some birds, it is said, are not harmed at all by the presence of poison placed for insects or vermin; the qualt in California were not harmed by the baits that were set out to kill ground separet—beneght the campaign was a general one and, was conducted with much intensity. In the Da-lotata a few birds succumbed to the arsenic mashes placed for grass-hoppers, but the number killed was so light as to be of no consequence.

it is said.

By killing stray cats and chasing off unscrupulous hunters the farmer can, become a party to a sort of defensive alfance with his birds, so that when his crops need protection against insect enemies he will have a aquadron of serial cavalty to help him repulse the raid, specialists 123.

THE Ontario Temperance Act as a war-time measure was an unqualified

On October 25, 1919, the people of Ontario voted by an overwhelming majority in favor of the permanent continuance of the Ontario Temperance Act, prohibiting the sale of intoxicating beverages.

The"Bootlegger"Must Go On December 31, 1919 came the repeal of the Federal Order M-Council—which was also a war-time measure—prohibiting importation, manufacture and export of intoxicating beverages.

of moxicating beverages.

Thus it became possible for individuals in profibilition provinces to import fiquors for consumption in the home; thus the "bootlegger" is able to offer the same for sale contrary to law, and thus the expressed will off the people in this province is being defeated.

### Importation Must Cease

Everything that applied in the last vote against the sale of intoxicating beverages within this province applies equally to the loss of them, and their Importation for beverage purposes should also be prohibited.

Hence arose necessity for further legis-lation and another Referendum.

Shall the Importation and the bringing of intoxicating Liquors into the Province be Prohibited?

YES!

OVER six thousand Canadian Over-land owners have driven their cars hundreds of thousands of mile—proved the cars exceptional economy—approved of its unusual riding qualities—

Now you can get Overland cars at prices even lower than when they were first offered in Canada—

nist offered in Canada—
One Canadian owner says of his Overland, "I get 30 miles to the gallon. I
have absolutely cut my gas bill in two,"
Another writes: "I don't profess to
know much about motor cars in general
and find that I don'to need to, to get from,
the Overland all that I expect in a car."

The strong recommendations for qual-

ity and economy, as well as the new reduced Overland prices, merit your immediate investigation. Let us show you this economy Sedan.

### Boxes and Cartons Designed to Suit Special Requirements of Different Kinds of Goods-

Comes Flat to the Packet The Rudd collapsible egg log comes to the packer flat. Little storage come is, thriefore required for the empty boxes rose filling. It can be "set up" much quicker than most executainers, and its study constituers are compact as embly insuire maximum protection in handling and shipping. The first sanitary container was invented by the

len.

But the egg-fiell insured capitation only, so we designed a container to moure rafe handling.

The Rudd egg container—which when "set-up" provides a separate compartment for each egg-has an added advantage in that it also enables the packer of selected eggs to brand his goods.

The Rudd egg container is but one of many types of containers which we have designed to suit the special requirements of unusual commodities.

Our experience in this line will be of assistance to you in designing a container for your product. At any rate we'll be glad of an opportunity to discuss the subject with you, and submit samples.

Beautiful Display of the Season's Newest in

Ladies' Suits and Dresses.

Crepe de Chene, Taffeta and Georgette

Dresses

A serviceable model is to be seen in Black Taffeta with the short sleeves and pockets deeply faced with seatlet.

Another distinctive dress is al-most entirely composed of Chin-ess embroidery in silver on navy with narrow accordeon pleated floances to relieve the skirt.

A Brown Charmeuse gowa has a Beep scalloped over-skirt with a facing of henna geogette. This dress is bright-ened with beautiful silk flowers at the beit and a touch of henna at the neck.

### SUITS ARE IN NAVY SAND and BLACK They are in three styles: The short, swinging, box-coat suit; the slimly belted suit, or the plain tailored suit.

Serge and Tricotines are the popular

The elaborate suits are heavily embroid-ered in heavy black silk or with touches of gilt, shades of henna.

Collars are either Tuxedo in style or totched Sieeves are plain or wide and The plain tailored models are braid or ribbon bound and deeply slashed in panels to give becoming lines.

The Plaid Skirt is exceedingly popular this season and shows pleaty of color.

Fancy Straw Braids and Ostrich Feather Trimming in the Millinery Department

Our display of Hats is the most beautiful we have ever shown and the prices are almost down to pre-war levels. We sak you to come and look at our models and compare our prices. Milian Straw, Lisers Straw, Davetyn ned Silk figure prominently in the display. Bright flowers and feather (rimmings in shades of hears, gold and red are popular.

### Ladies' Suits and Dresses

Crepe de Chene, Taffeta and

Georgette Dresses

On display in our Mantle De-partment we have a number of beautiful dresses very modern in design at a much 'lower price than the same dress would have been marked last senson,

A serviceable model is to be short siceves and pockets deeply faced with scarlet.

Another distinctive dress is al-most entirely composed of Chin-ese embroidery in silver on navy with narrow accordeon pleated flounces to relieve the skirt.

A Brown Charmense gown A Brown Charmense gown has a deep scalloped over-skirt with a facing of henna georgette. This dress is bright-ened with beautiful silk flowers at the belt and a touch of henna at the neck.

### SUITS ARE IN NAVY SAND and BLACK They are in three styles: The short, swinging, box-coat suit; the slimly belted suit, or the plain tailored suit.

Serge and Tricotines are the popular

The elaborate suits are heavity embroid-cred in heavy black silk or with touches of gift, shades of henna. Cottars are either Tuxedo in style or otched. Siceves are plain or wide and

The plain failured models are braid or ribbon bound and deeply slashed in panels to give becoming lines.

The Plaid Skirt is exceedingly popular this season and shows plenty of color.

Fancy Straw Braids and Ostrich Feather Trimming in the Millinery Department

Our display of Hats is the most beautiful we have ever shown and the prices are almost down to pre-war levels. We ask you to come and look at our models and confpare our prices. Milan Straw, Lisere Straw, Duvetyn and Silk figure p ently in the display. Bright flowers and feathe shades of henna, gold and red are popular.

"The Product of Experience"

MADE IN CANADA A MOTOR CAR can be no better than the material of which it is made. The materials in the Chevrolet "FB50"

Touring Car are of the best. Yet to these have been added scientific construction - strength without weight - that results in the endurance, comfort and economy for which Chevrolet is famous.

In the construction of the Chevrolet "FB50" sound experience has been applied with common sense to produce a worthy, practical, good-looking car for general use.

# GRAY-DORT

## Watchful Eyes Guard Its Quality

THERE is much more than mere routine to the elaborate system of inspection which guards the supreme quality of the Gray-Dort car.

Built into every car is the pride of an organization over sixty years experienced in the production of satisfactory transportation.

each skilled craftsman looks upon the Gray-Dort as his personal product, by which he will be judged in the eyes of the world.

The result is a carefulness-a precisionof construction which is matched only by the fineness of the materials with which our men work.

The final result is freedom from ordinary motor car troubles and the long life which comes only with perfect harmony in every working part.

Compared with other cars, the Gray-Dort is worth much more than its fair made-in-Canada price.

The difficulty in securing a Gray-Dort will increase as the season advances. See the Gray-Dort dealer now.

1921 is the Jubilee of Stanfield's Unshrinkable Underwear. It is a far cry to the magnificent mills at Truro—models of modern equipment and efficiency—from the tiny building in Prince Edward Island where the late Mr. C. E. Stanffield Segan the evolution of an ideal in 1856.

The late Mr. C. E. Stanfield learned the weallen trade in his uncle's mill in Bradford, England, then as now a center of the woollen industry. But the pride he took in his world developed ambition. He wanted to start out for himself. Canada was much talked about which of Country and he decided to come to the new world across the Atlantic.

to come to the new world across the Atlantic.

He built his first mill at I ryon, P.E.I., in 1836. So successful was he had a wider field was sought and he chose Truro, Nova Scotia, locating there in 1870, moving from the original mill to a larger one, and finally an 1882, constructing a new plant on the bank of the Salmon River, the site of Stanfield's Limited, and beginning the nucleus of the present Stanfield mills.

In 1896, the late M.O.E. Stanfield decided to retire and old out the growing business to his two sons John and Frank, who are now President and Vice President of Stanfield's Limited, a corporate company.

Stanfield and wooleds are cynonymous. A hundred years ago, Charles Stanfield was a woolen manufacturer, in Bradford, England, He taught the business to a nephew, the late C. E. Stanfield who made the inset Cardian, after the stanfield will be stanfield with traditions of trade one generation following handless of the business to day. Thus, stanfields are carrying out the best of the cold British traditions of trade one generation following handless of the trade.

That this vocational tradition is a good thing for business and for the world at large, is proven in the case of the Stanfield family, for it was due to the efforts of John and Frank Stanfield that Unshrinkable Underwear was made possible. These two before the garments were woven, giving Stanfield's Unshrinkable Underwear to the world and making it the outstanding feature of the Stanfield products.

Stanfield's Unshrinkable Underweat was manufactured first for men who work outdoors-farmers, fishermen, trainmen. As towns developed into cities and the cities into worlds within themselves, Stanfields began to make finer underwear, in weights suited to the night who worked indoors and we'en not so much exposed to the rigors of winter. Then came the addition of silk and-wool and is a family affair both from the standpoint of wearers as well as placed. Stanfields have steadily held to the original idea behind the business—to avoid fads and to make underwear or a quality demanded by the majority of the Canadian people, with quality kept in to a standard and prices kept down to a minimum consistent with quality.

It is this unswerving adherence to an ideal of quality that has built up a market for Stanfield's Unshrinkable Underwear that more than equals the supply, and has given a reputation to the name "Stanfield" that is an asset which cannot be valued in mere dollars and cents.

The Jubilee of Stanfield's Limited crowns with success the achievement of a Canadian institution which occupies its present; proud position because of a rigid adherence to the fundamentals of sound business -making an essential article, making it better and keeping the price right.

# The Case for **Newspaper Advertising**

, SATURDAY, MARCH 12, 1921.

THE OURSTION HAS BEEN ASKED! WHAT ARE THE ADVANTAGES OF DAILY NEWSPAPER ADVERTISING SY CONTRAST WITH ALL OTHER FORMS OF ADVERTISING Y

IN SETTING OUT THESE ADVANTAGES, DAILY NEWSPAPER PUBLISHERS DO NOT DISCOUNT. SUPPLEMENTARY FORMS OF PUBLICITY. BUT THE AREA OF CAMADA AND ITS DISTRIBUTION OF POPULATION ARE SUCH, THAT DAILY NEWSPAPER ADVERTISING HAS BEEN AND MUST BE THE BASS-OF ALL THE POINTEDLY SUCCESSFUL CANADIAN ADVERTISING CAMPAIGNS.

#### I. UNIVERSAL APPEAL.

(a) Enters the home intimately.

The newspaper enters the home and has a more intimate appeal to all members of the family than any other reading matter.

The newspaper appeals to all literate members of of the community, without distinction of race, class, creed, sex, income or occupation.

The newspaper finds its readers, whether they are at home or not; if they are not at home, it reaches them when travelling, on trains and cars, in hotels, clubs and libraries.

The newspaper is to the business executive the most necessary medium of information.

#### (e) Minimum duplication.

Because of the completeness of the service of each newspaper, there is a minimum of duplica-tion between newspapers...

#### 3. IMMEDIATE APPEARANCE.

#### (a) Impulse to immediate action.

Because the newspaper deals with the immediate fact and the opinion of the day, its columns give an impulse to immediate action; results are often felt.even before the presses are silent.

#### (b) Quick insertion

Through the newspaper the reader may be reach-ed within a few hours after copy is prepared.

#### (c) Quick change.

A newspaper advertisement which proves suc-cessful ran be repeated promptly before the con-ditions favoring success have altered.

Newspaper copy can be adapted to the day on which it appears, or to current events, and can avoid untimely references,

In the newspaper it is possible to use serial copy with any desired interval between insertions.

A newspaper campaign may be planned to of a maximum cumulative effect, through the ibility of space and intervals.

## 4. LOCALIZED CIRCULATION.

#### (a) Close to place of purchase,

The reader of a newspaper advertisement can go directly to the place where the article advertised is on sale.

The advertiser with spotty distribution can, by using newspapers, advertise exclusively where his goods are on sale. (c) Concentrated territory.

The newspaper offers the maximum on of circulation in any community.

#### (d) Strengthening weak territory.

The newspaper may be used to seringthen weak spots in the distribution with the exact degree of force desired.

(c) Progressive zone advertising.

Newspaper advertising may be extended progressively by zones, hand-in-hand with and aiding the extension of distribution.

When necessary, different prices may be quoted in different territories through newspaper adver-tising.

WHITE MAN'S BURDEN BORNE BY MEIGHEN GOVERNMENT.

The financial sibution, in Canada, Intendided by railway deficits helds the centre of the political stage. All political parties are agreed that the position is one that cabb for carried handling, and no non outside a few extreme partiesm attempts to blame the Dominion Government for the situation that has developed. The Military, so far as has been possible, has practiced economy. rt has kept down expenditure on militia and on the navy, reduced capital outlay by many millions and turned off expenditure apps in various other directions. What growth of liability there has been—and it is serious enough—is almost wholly of liability there has been—and it is serious enough—a minosi whomin raceable to the war, to our enominous national debt, to pensions, to re-catabilishment plans, and to railways. For this, the Government'cannot be blamed. It is expenditure which Canadians as a whole have sane-tioned, expenditure which few red-blooided Canadians would care to shirk ing the projects be hurled from power.

The Railway Case.

Note is the railway case much different. The railway problem in Casada.today is not of this Government's por of this Parliament's making. R is a legacy of the railway intoxication of bygone years, the price was are paying for the folly of 1904. It is fattle, of course, to speculate on what might have been, but surveying the present situation it is dif-Scult not to regret that the advice of Sir Robert Borden on transportation in 1904 was rejected by Parliament. Sir Robert, with a vision far ahead of his time, realized that Canada was being overrailwayed. He perceived that the Dominion's development had not reached the stage where three transcontinentals were necessary; and as a substitute policy for Sir-Wilfrid Laurier's scheme of the Grand Trunk Pacific and the og our witten Laurier's igneme of the Grand trank Pacific and the Mational Transcontinental, he proposed that the Interroclonial Railway should be linked up with the Canada Atlantic and Parry Sound reads to form part of a transcontinental line to the Pacific coast. It was sensible advice, but it was not heeded. Six Wilfrid's cloquent talk about the twentieth century being Canada's century and his "pray God it may one be too late" speeches carried the day, the country sanctioned his policies with overwhelming voice, and the National Transcontinental from Win-nipeg to Moncton, a road running through d wilderness, was built. That was the genesis of Canada's railway trouble. A country with eight mil-lion people found itself saddled with \$3,000 miles of railway, with a plication of through roads and the consequent maintenance of need-transportation facilities. The result was inevitable; but it was need by a period of depression, by the great war; and a situation developed by which the country had no choice but to take over the railways to save transportation from chao-

The Railway Brotherhoods are international organisations, only gight per cent. of whose members are employed in Canada, but not unaturally perhaps, they insisted that the concessions secured through Washington for American railway workers should apply to the railways. Canada. The result was that, as compared with pre-war scales, wag-reases on Canadian railways represent something like 150 millions year. Then on top of this, came an increase in the cost of supplies.

They were increases with which passenger and freight rates could not keep pace, and the consequence is, and was bound to be, deficits.

Such, in brief compass, it is the railway problem. It is a problem.

Such, in brief compais, it is the railway problem. It is a pro-bre solution of which will not be found in the grotesque proposal of Cprear to tear up our railway tracks, nor in the mere partisan or that aims at nothing bat political advantage. It will be found rail the facing of realities, in the reduction of operating costs.

The future expansion of Japan is a subject which has caused anxiety to both the United States and Great Britain, as well as China. Sir Sid-ney Low, in the London Pictorial this week, advocates an Anglo-Amerito both the United Stüges and Great norman, an ample American program, the Louised Stüges and Great norman programs of the Great Norman programs of the Mandendra. "Sheetings have been programs of the Great Norman progra codic and social volcano. If we insist on sitting on the crater the ex-position which must some may perhaps thring another words war." It solves as if such a solution of the impending difficulty would refere our British Columbia costs of an energe which now seems to be inevitable sooner or later. At the coming June meeting of the British and Dominion Premiers, the Angle-Japanesea alliance, the Empire naval policy, and British Empire foreign policy, with the under veriew, but no problem is of more importance than but in which Japan's expansion is a Teature.

Germany's Foreign Minister, Simons, who made such a mess of things at Loodon, must be awarded premier honors as a bungler. The New York Times makes it clear that even the German press and government admit that Foreign Minister Simons handled his case hadly at London. don. He did not make his first offer understond. He denied that he had a second and belier offer in his pocket, though under pressure he immea section and better over it in species, integer more present as a man-diately produced one. His experts got tangled up in their own figures. And he appears to have misled Berlin into believing that the Albes were merely bluffing and would never carry out their threat to occupy addi-tional Germany territory. All this makes up a rather sorry record for

the chosen agent of the German Government.

The finishing touch was put to his work by Dr. Simons in the closing moments of the London conference. He entered a solemn "protest" inst what had been done. It was an act of war against Germany. He would appeal to the League of Nations to preyent it. The whole thing was, he asserted, anticipating the proclamation of President Ebert, in direct violation of the treaty of Versailles. This was a trifle cool coming from a man who had been making speeches in Germany to the effect that the treaty was already dead and could never be enforced upon Germany. To exalt that treaty in London as sacred and inviolable was a bit sudden.

## **Estey Organs**

For Church Chapel Lodge or School

There is no better time nor any more auspicious occasion to inaugurate an organ than Easter-tide. The occasion usually leads to innovations; nature herself is donning her Spring garb.

To choose the Estey is to settle matters for a long time to come. Even past the day when it will leave the chancel to make room for the pipe-organ, it will still be of service for choir practice.

You will find various styles of Estry Organs at Linksay's; in addition to-what can be seen in our ware-rooms we can supply single-minuted organs with or without pead has and electic blower, and with or with pipe-top. Of course, we would be glad to great low terms.

#### THE MARITIMES

The month of April had begun when first they sharted on their lun, And very soon they found the tracks that led the way to Hallfar. Blod fell quite strange and Blilt be same: they filter, lower the tracelling game; But quickly felt much more at case, when people said—"Cu where you please; This country stands for Freedom's cause—"out But protected by the Thus."

"They dressed as sailors, gave a hand to ships that needed help to land."

So, by the time they reached this port, they both began to like the And started out the nights to see, no matter where they chanced to

They saw hoats here of every size all weighted low with merchandise, and heard their whistles load and shifl; 'twas all so new to 10b and thill. They dressed as saliers, gave a hould to ships that receded help to land, and in a very short time knew each officer and all the crew. The towering citated they spied and distant islands fortiled, 'That guard the port and signal to each vessel coming into view.' This lattber-grand, with Intellie facile, took many years plan and build.

A pily Captain going to sea found out that Bob and fill were free. So took there for an ocasa cruise and took them all the Nasy nigores. So took there for an ocasa cruise and took them all the Nasy nigores. So took them to the nigorest control of the nigorest control of

# Life Insurance At Cost

WHEN you take out a Participating Policy in The Mutual Life Assurance Company of Canada you buy Life Insurance at cost.

Everything earned above the expenses of carrying on the business of The Mutual Life is the exclusive property of the policyholders.

There are no stockholders or shareholders in The Mutual—the policyholders are the company.

Therefore, ALL of the profits—not 90; or 95; of them—belong to the policyholders.

This means Life Insurance at Cost.

And, as the Mutual Life has been noted for the very liberal profits paid on its Participating Policies, this means Life Insurance at LOW Cost.

That the Mutual System is as safe as it is profitable and conomical is proven by the fact that The Mutual Life Assurance Company of Canada is fifty-one years old, and is known as one of Canada's strongest and most ably managed financial institution.

If you are interested in purchasing the greatest ount of sound, safe Life Insurance for the least ney—Life Insurance at cost—consult the Mutual

S TABILITY of value/is not the least of the appeals of the Abelaughlin to the man of sound business sense. It is well known that an investment in a Master Six is one that has no established value. Metaughlin models, one, two or three years old, always field a ready sale at a Eair price. This is

due not only to the lasting quality of the Mediamphin Master Six, but to its acceptance, among motorists as "Campida" Standard Car." Hence, the indulgence of your good taste in choosing a car of such superior character is more than justified by this substantial Juniness consideration.

## Higher Value Lower Cost

AT its new low price no one need be denied the greater comfort and rid-ing qualities of the Overland Sedan. Since you rest as you ride and save as you go, it's no wonder owners speak of their Overlands in the highest terms.

"The little old car has always been ready to go up town, or up country with-out any worries as to what might happen because nothing ever happened"—that is what one Canadian owner writes.

Another† says, "As for springs I never give them a thought."

Expressions like these indicate utmost satisfaction and confidence — the things you most desire in a motor car.

Let us show you the greater economy nd value of this handsome Sedan at its

## Its Value Is Intentional

FACH added Gray-Dort which goes into use serves not only to provide fresh evidence as to the quality of the car, but also emphasizes anew the high ideals of the Institution which builds it.

A surprising majority of the thousands of motorists who have selected the Gray-Dort as the biggest value in the motor car field tell us that the reputation of the men responsible for the car has been the most important factor in their choice.

And this is natural, because only by deliberately intending to give heaping value could we hope to produce such a car as the Gray-Dort at its price.

1. We would suggest that prior to elections some wom organization of the city would arrange a series of talks for men on citizenship in order that they may be brought to, a re-ation of a voter's responsibility. Probably this would awake greater interest in municipal affairs and thus overcome-the sent situation where we find instances of over 30 per cent. of voters not easting their ballot.

2. That some special provision be made for backward pupils in the public schools.
3. That the schools, lighted and equipped as they are, be

used as community centres.

4. (a) We would recommend that there be stricter as vision of the school playgrounds; (b) that steps be taken by

authorities to prevent the meeting of boys and girls in the grunds after school hours, evenings and on Sundays; (c) that teachers be asked to take measures to prevent the ol language, and rudeness to passersby, of which some pup

# From the Saloon to the Cellar

You don't want the curse of the open bar transferred to the private home.

OU voted against the saloon. You voted against the bar. You did away with them. You voted against the sale of booze.

Immense quantities of liquor are now being brought into the province for con-sumption in the home! Supress ship-ments alone have run as high as eight carloads per day during the past year.

#### You Want Prohibition

What you meant when you voted "No" at the last Referendum was prohibition of the use of intoxicating liquor for beverage purposes.

Do you want Ontario's boys and girls familiarized with "booze" and subjected to its daily temptations in their own homes? That is the way it is working out

Home-drinking is a poor training for young people, and a poor moral founda-tion for boys and girls when away from

Shall the importation and the bringing of intoxicating liquors into the province be prohibited?

OPPOSITION CALMS DOWN.

Prosestos pruniese of a sustained Opposition drive against the rowmened with the object of forcing it to the country, are not being addied. Mr. King began in a sufficiently militant most but the severe system suffered in the division on the address appears to have cooled this order and a conspicuous inactivity has attictle upon his forces. Nor are his agrariants, led by Mr. Cerar, much more aggressive. The National Oppressives, as they persist in calling themselves, are sowly landicaped by a lack of knowledge of parliamientary procedure, and thereby objective to the contrast of their garty. The objective was the contrast of the contrast of their garty. The objective was of condicence sourced by Mr. Neighen put new life and the majustes into this Golovers, and there is no longer talk of yielding to the apposition's demand for a general eleption.

# GRAY-DORT

### Watchful Eyes Guard Its Quality

THERE is much more than mere routine to the elaborate system of inspection which guards the supreme quality of the Gray-Dort car.

Built into every car is the pride of an organization over sixty years experienced in the production of satisfactory transportation.

each skilled craftsman looks upon the Gray-Dort as his personal product, by which he will be judged in the eyes of the world.

The result is a carefulness—a precision—of construction which is matched only by the fineness of the materials with which our men work.

The final result is freedom from ordinary motor car troubles and the long life which comes only with perfect harmony in every working part.

Compared with other cars, the Gray-Dort is worth much more than its fair made-in-Canada price.

The difficulty in securing a Gray-Dort will increase as the season advances. See the Gray-Dort dealer now.

### Regulations for Taking the Vote on April 18

THE Parliament of Canada has recently passed a bill regulating the taking of the vote on the Referendum in Ontario on April 18. The points to remember are as follows:

- Every British subject by birth or naturalization, man or woman, resident in the Dominion of Canada one year previous to February 1, 1921, and resident in the Province of Ontario. for two months previous to Same date, is entitled to vote, unless otherwise disqualified.
- Quainted.

  Voters' Lists used in the last provincial referendum are the lists to be used in this Referendum, subject to revision. Every voter in an urban polling division must be on the list, and will presumably be on the list only in the division in which he resides.
- sion in which he resides.

  In incorporated cities and towns of 1,000 population or over, arrangements will be made for receiving applications from any who are not now on the list on March 29 to April 4 inclusive—except Sunday—when for six clear days officers will sit to receive such applications.
- In rural polling divisions the voter must be either on the list or be put upon it as a resident and be vouched for as such by another resident.
- Both affirmative and negative sides have the right to select scrutineers.
- Women have the right to vote.

CREAM THE WEST

The most expensive food is generally the poorest in real nutriment. Considering its high nutritive value, Shredded Wheat Biscuit is without doubt the cheapest food in the world today. It contains all the rich muscle-making elements in the whole wheat grain. The price was not pushed up on account of the war so we don't have to come down. Shredded Wheat contains more real nutriment than mean or eggs, and costs much less.

Two Biscuits served with hot milk make a warm, nourishing meal for the cold days. Delicious with sliced bananas or other fruits. MADE IN CANADA

YOU get the height of musical joy when you hear a great living artist.
But you get equal joy when you hear the same artist on the New Edison.

The proof of this is convincing, conclusive and concrete,

# The NEW EDISON "The Phonograph with a Soul "

Convincing—for Mr. Edison him-self said in a recent interview; "The emotional effects and con-sequent benefits of music are well known. Through the agency of my new phonograph, I can pro-duce the same effects a would, result from the original music."

Conclusive—for you can scare, on a Mood Change Chart, the effects of the New Edison's realism on you. Come in and listen to this test of realism.

Concrete—for we will show a big book of proof, that there is no dif-ference between Rs-Cusavus music and the original music. This proof would be good in any court of law.
